

CHIEF SUSTAINABILITY OFFICERS' CONCLAVE
8TH OCTOBER 2014

LE MERIDIEN, NEW DELHI

**Energy Efficiency in Buildings by Retrofitting -
Special Interest Group**

Looking Forward: CSO Forum 2014 - 15

CHALLENGES IDENTIFIED

- Lack of Awareness amongst Businesses
- Calculations Establishing the Business Case for increasing the Energy Efficiency in Buildings should be made comprehensible by the Non Technical Personnel
- Fragmentation of the Market Players in the Construction Industry

SOLUTIONS IDENTIFIED

- Application of WBCSD's Energy Efficiency in Buildings 2.0 Programme for the TERI BCSD Member Companies
- A One on one interaction with the CFO on making a specific Business Case for driving Energy Efficiency in Buildings Measures in an Organization
- Nominate someone for the Technical Committee of a Market Laboratory
- Participate as a Stakeholder in one of the Market Laboratories.

- We look forward to you joining the Chief Sustainability Officers' Forum 2014 - 2015
